

International Conference on Physics and Astrophysics of Quark Gluon Plasma (ICPAQGP-2023)

Friday 10 February 2023

Parallel Session IVB (Venue : Hall 2/Crystal, Chair : Dr. Prabhat Pujahari) (14:30-16:15)

time	[id] title	presenter
14:30	[165] Heavy quark diffusion coefficient from lattice QCD	Dr DATTA, Saumen
14:45	[23] Anisotropic diffusion of heavy quarks in Glasma	Ms -, Pooja
15:00	[60] Heavy quark transport within viscous quark-gluon plasma	Ms SHAIKH, Adiba
15:15	[66] Quarkonium dynamics in non-static limit	Dr SINGH, Balbeer
15:30	[69] Anisotropic structure of heavy quarkonium potential in presence of magnetic field	GHOSH, Ritesh
15:45	[163] Heavy Hybrid Decays to Quarkonia	MOHAPATRA, Abhishek
16:00	[110] Re-visiting the J/Ψ suppression for quark-gluon plasma formation in small systems	MISHRA, Ananta Prasad
